## KAROO VENISON

Lynne Minaar, Annatjie Reynolds & Albé Neethling

For many years, venison was fit only for 'biltong' and 'boerewors'. Now, *Karoo Venison* offers beautifully presented recipes for delicious meals using this low-fat, versatile meat for health-conscious consumers. The book is also a celebration of the magic and mystery of the Karoo, taking you into the homes of local people who share their passion for the area, its people, wildlife and, of course, unique culinary treats.

The authors, three great friends, created this book by gathering recipes and secret tips from their region's most celebrated cooks, housewives and game hunters. Enter the welcoming kitchens of these quality cooks and prepare uniquely South African dishes for your family and friends.
